Congress of the United States
Washington, DC 20515

March 29, 2019

Michael Stoker, Regional Administrator
U.S. Environmental Protection Agency, Region 9
75 Hawthorne Street
San Francisco, CA 94105

Dear Mr. Stoker:

We have received and reviewed the California State Water Resources Control Board's submittal to the U.S. Environmental Protection Agency (EPA) of revised water quality standards for the San Francisco Bay-Delta estuary (Plan).

We expect that EPA will take all necessary steps to conduct a thorough review of all the revised water quality standards adopted by the Board and ensure that the standards are supported by sound science.

Please keep our offices apprised of any final decision the EPA intends to make on this issue.

Sincerely,

Tom McClintock
